

Mini Two Channel Mixer Amplifier ADS2x20 Micro

2 × 20W 8 ohm DC 24V Bridge

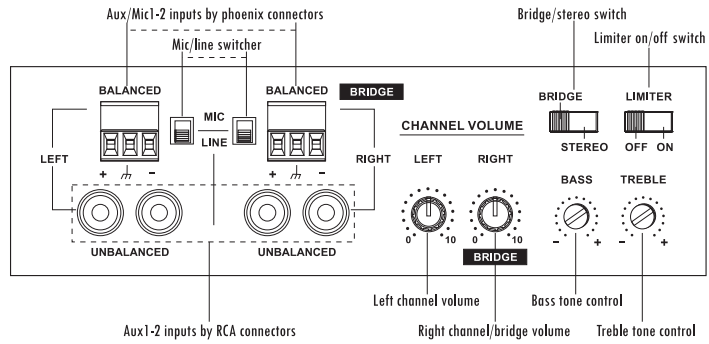

Features

- * Smart compact size for tabletop or wall mounted design.
- * Digital high efficiency mini amplifier.
- * Stereo output 20 watts by two channels and bridged output 40 watts
- * 2 Mic/line switchable inputs by phoenix connectors and 2 unbalanced aux inputs by dual RCA type
- * Left and right master volume controls over Mic and music, bass and treble tone controls.
- * Left and right channel outputs by phoenix connector, bridged or stereo output two options with switch
- * Speaker stereo outputs at 4 ohms and speaker bridged output at 8 ohms.
- * Built-in limiter for low noise and efficient operation, with limiter on/off switch, which make it suitable for laptop and iphone input.
- * DC 24V power adapter is included.

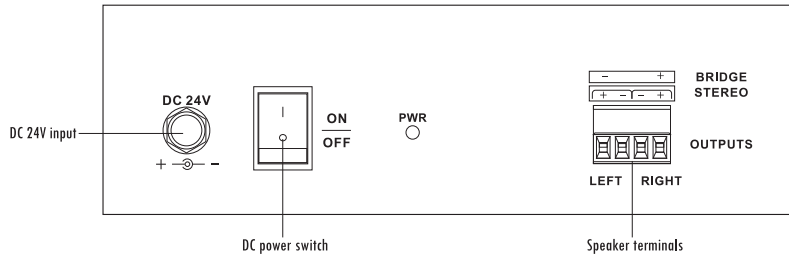

Specifications

Model	ADS2x20 Micro
Rated Power Output	2 × 20W
Speaker Outputs	4Ω or 8Ω
Input	2 AUX inputs by RCA and 2 MIC/Line inputs by phoenix connectors
LINE	350mV/10KΩ
MIC Input	5mV/600Ω
Frequency Response	50Hz~18KHz(± 2dB)
S/N Ratio	Better than 85dB
THD	Less than 0.1% at 1KHz, 1/3 rated power
Efficiency	85%
Controls	Power switch, volume control
Indicators	Power
Protection	AC fuse, clipping, high temp & short-circuit
Power Supply	DC 24V
Dimensions	230 × 115 × 56mm
Finish	Panel: steel, black Case: steel, black
